Presentation

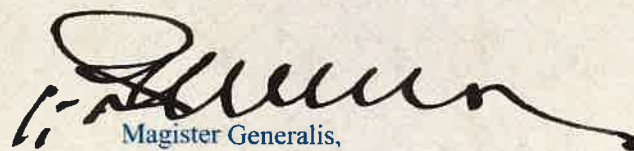

Ordo Equestris Vini Europae is an international organization, present in over 28 countries, which has over 5000 members, social, and cultural personalities, eager to promote European values, guided by the principle of unity within diversity and having wine as key element of cultural identity. Romanian Ordo Equestris Vini Europae's Consulate began its activity in 2007, presently having over 400 members in 5 Legates and 7 Commanderies.

Our activities are based on volunteering and the reward of our effort lies in the feeling of accomplishment coming from helping others, thus passing to the future generation what is called the spirit of conserving and perpetuating multi millenary wine related traditions and customs.

The Knightly Festival of Romanian Wine is limited to the events dedicated to the National Day of Romanian gastronomy and wine and its main objective is to promote the most representative wine producers in Romania.

The 2nd edition of the Romanian Wine Knight Festival will be organized in partnership with the Jidvei Group, the largest wine producer in Romania. Located in the Târnavelor area - called "the Wine Land" (Weinland) since the feudal era - Jidvei company owns an area of over 2500 hectares of vines, being the largest single-owner vineyard in Europe. The experience of over 70 years and the investment effort made after the privatization of the company in 1999 materialized in an extensive process of reconversion, refurbishment and modernization, had as an effect the production of high quality wines, awarded at major domestic and international profile competitions.
